

I am Christina Sterrett and I am a K-5th grade Art Educator at Tortuga Preserve Elementary School. I have been a TALC representative for ten years and the lead representative at my school for as many years. In addition, I have had a seat at the TALC Bargaining table for seven years advocating for our teachers in Lee County. I have attended the FEA Delegate Assembly for ten years and have attended the NEA Representative Assembly twice. I am seeking your support and your vote to allow me to attend this year's NEA Representative Assembly so that I may continue advocating for our local members and continue to learn about the educational issues and concerns being discussed nationally, bringing that knowledge back in order to make our local union stronger. Thank you in advance for your consideration.
